

Information Needed

You should provide the following information:

Greywater source(s) to be reused;

Number of bedrooms in the house.

Brand name and details of the proposed system

- Proposed location of the greywater system and reuse area including the position of irrigation lines/trenches
- Method of construction of surface irrigation area bed, including materials to be used
- Where a split irrigation system is used, details of mechanisms to ensure an even discharge to each area and to prevent overloading of individual areas

Site layout plan drawn to scale showing:

- Block dimensions
- Natural ground contours, wells, bores, water courses and depth to groundwater
- Existing and proposed buildings, other structures and paved areas
- Details and location of any diversion trenches to collect surface or migrating sub surface water
- Details and location of roof water disposal
- Setback distances from boundaries, buildings, surface irrigation and other structures
- Details of the sewer overflow pipe work where this is intended
