# Commercial Parking Information

Time based parking restrictions apply to most streets in Subiaco. You may be eligible for a commercial parking permit if you are temporarily working on a building site or development. Commercial parking permits allow any trades persons or utility services to park near to a development without having to observe any time restrictions in place. For example, a furniture removalist, may need to park on the street outside a property in a one hour zone, requiring a commercial parking permit to overstay without being infringed.

A commercial parking permit allows a vehicle to:

- Exceed any one-hour or more time restricted parking area
- Park within the street(s) listed on the permit

It does not permit a vehicle to:

- Park in a no stopping or no parking area
- Park in a clearway, right of way or loading zone
- Park headed in the wrong direction
- Park other than wholly within a parking bay
- Park in a paid ticket parking car station
- Obstruct a parking space with any equipment or materials related to the development

## Cost

\$10 per full day

\$5 per half day

## Application

Please find enclosed a commercial parking permit application form. Please disseminate this information sheet and application form to all drivers of trade or service vehicle associated with the development.

An application must be submitted along with the application fee. An approved application does not guarantee the availability of a parking bay.
