CITY OF SUBIACO: PLATINUM WATERWISE COUNCIL OF THE YEAR

The City of Subiaco has been recognised as the state leader in water sustainability, taking out top honours at the annual Waterwise Business Recognition event. The city was named Platinum Waterwise Council of the Year by the Minister for Water, Dave Kelly MLA, for demonstrating leadership in waterwise operations and an ongoing commitment to create a water-sensitive community through its projects and programs.

The city’s platinum status reflects its innovative environmental programs, including the trial of ultrasonic, solar-powered algae control technology in the Subiaco Common Irrigation Lake; a study of the city’s drainage system and infiltration work carried out in Shenton Park to assist in flood prevention; and a variety of community education programs, from community planting events to waterwise gardening workshops.

The city wishes to also congratulate the residents, businesses and community groups who continue to participate in such initiatives and set new benchmarks in waterwise excellence – since 2015, the Subiaco community has contributed to a 25 per cent decrease in potable water.

SHAPING OUR CITY DROP-IN SESSIONS: TRIANGLE PRECINCT

The City of Subiaco’s draft Local Planning Strategy and draft Local Planning Scheme No. 5 are now open for consultation. If you are a resident or ratepayer in the City of Subiaco, you should have received information about these documents in the mail. Both drafts propose significant changes that could affect your property and neighbourhood.

This week, the sessions will focus on the ‘Triangle’ precinct which is the area bounded by Churchill Avenue to the north, Thomas Street to the east, a small section of Nicholson Road to the south, and Rokey Road, then Rupert Street, to the west. Please note that this precinct includes the Rokey Road South area – see the map on the Have Your Say website. Details are as follows:
