BUSINESS CASE APPROVED FOR SUBI EAST

The business case for the Subi East redevelopment has been approved by the State Government with $227 million budgeted to transform the Subiaco Oval and former Princess Margaret Hospital (PMH) sites. This funding will go towards preparing the Subi East site for an expected $1 billion worth of private investment over the life of the project, helping to boost the local economy.

The City of Subiaco will now work with the State Government on the masterplan which will focus on the urban design of the site including cultural and heritage elements, landscape design and the public realm. There will opportunities for community input during the master planning phase.

SUBIACO OVAL DEMOLITION UPDATE

Demolition activities are ongoing at Subiaco Oval with the light towers and sports bar and function room now removed. A series of plans have been developed to manage traffic, dust, noise, vibration and safety on and around the site during this phase which includes a demolition methodology that captures noise within the stadium complex and no crushing of demolition materials on-site.

The State Government’s land and development agency, LandCorp is responsible for the project. If you have any questions or concerns, contact LandCorp’s 24-hour project information line on 1800 430 844. For more project information and updates visit www.haveyoursay.landcorp.com.au
