

## School Programs at Subiaco Museum

Subiaco Museum offers fun and interactive history programs for Year One and Year Two students.

Each program is specifically designed to meet the requirements of the HASS (History) Curriculum. Sessions are free for local schools and a charge of \$2 per student will apply to all schools outside of Subiaco. Bookings are essential and open on Monday 13 February 2023.

### Year One Program

Focus: Present and Past Family Life

Year One students will role play daily lives of Subiaco families from the early 1900s by handling collection items, participating in wash day activities, shopping at the Ye Olde corner store and dressing up in 1900s costumes.

They can dig deep into the museum trunk and explore historical photographs and objects that belonged to families from the past. They will discover for themselves how families have changed or stayed the same.

Through playing the 'Then' and 'Now' game students can consider the differences and similarities of past and present-day family life.

### Year Two Program

Focus: The Past in the Present and Changes in Technology

Year Two students will learn about life in the past through hands-on olden day activities and games.

Students get an opportunity to compare their daily lives with a child from Subiaco's past. They will step back in time through handling museum artefacts and experience how people lived, worked, travelled, shopped, communicated and spent their leisure time. Students will get to experience a lesson in the old school room.

Through these hands-on activities, students will discover how people's lives have changed as a result of technological developments.
